

My “Words of the Wiser”

- I will plan, create, and design a self-selected visual that symbolizes personal connections and expository responses inspired by recently studied texts “Treasure of Lemon Brown” and “Thank You Ma’am” with focus on the “Words of the Wiser” Fiction Signpost.
- I will entitle my visual **“MY WORDS OF THE WISER”** to highlight the main characters’ qualities, relationships, and impact on the resolutions in each text.
- I will reflect on, collect, and state 3-5 sayings and quotes that imitate words of the wiser from my personal friends, family, teachers or other influential persons who intend to impact my life with insightful advice just as Lemon Brown and Ms. Jones.
- I will include a picture, illustration, or graphic feature that symbolizes each of the sayings and quotes represented on my visual from wise individuals in my life.
- I will write 2-3 complete sentences about what each of the sayings, quotes, and wise words mean and what I think is the life lesson intended by the words of the wiser.
- I will add supporting details to describe why the saying matters to me and how it is intended to change my life forever!
- I will include 2 or more character traits about the quoted individuals mentioned on my visual
- I will proofread and edit my writing for correct capitalization, word use/grammar, punctuation, and spelling using CUPS and SWAG.
- I will revise (change) my word choice and sentence structures using RADaR and SWAG.
- I will accessorize or decorate my project with color and/or other elements to enhance presentation and creativity.
- I will organize my visual in a logical order and plan an effective project layout.
